CASE STUDY | ST. REGIS BERMUDA MINIBAR DRESSER

Our expert sourcing team developed a competitive proposal to execute according to the designer's specs.

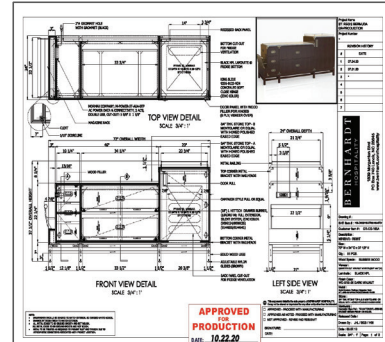

This piece was 1 of 84 items in the project, totaling 2,430 pieces of custom casegoods & seating.

Our factories periodically sent progress photos to keep the team updated on project status and give peace of mind.

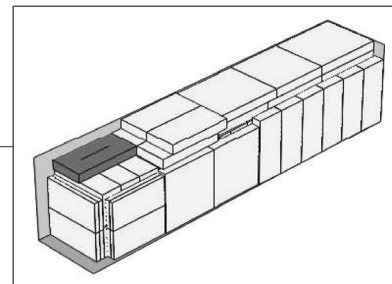

Casework, metal, and stone were handcrafted in our various specialized facilities overseas, overseen and inspected by Bernhardt employees, not agents.

Engineering created detailed shop drawings and photorealistic renderings for a seamless approval process.

Software was used to optimize cargo space, resulting in cost savings.

The final product is a prime example of Bernhardt Hospitality's expertise, custom capabilities, and legacy of quality.
